

All of these are things with numbers:

Catch 22

3 Cheers

Cloud 9

High 5

6 Pack

4 Score

6 Shooter

23 Skidoo

Super 8

0 Tolerance

So copy each word in the list a number of times equal to the number it goes with and you get one megaword like catchcatchcatch...catchcheerscheerscheerscloud etc.

Indexing into that megaword by the numbers, you get Dressed to the, which gives you NINES.
